

DO I HAVE THE HARDWARE?

HEADSET MIC TO TALK TO MY SQUAD

You'll need a microphone so you can communicate with your squad during the game. You can use the headset with an inbuilt mic that most of us get with our phones.

If you don't have a headset, email us at info@wellplayedproject.com and we'll send one out to you. We have a limited number available – they're not great but they'll get the job done!

WINDOWS OPERATING SYSTEM

The software and games being played during this event run on the Windows operating system - this is the best option to avoid any compatibility issues.

HARDWARE REQUIREMENTS

Here are the minimum requirements to ensure your computer can install and run the games:

- **Operating system:** Windows XP SP3; Windows 7 SP1; Windows8 or Windows 10
- **Hard Drive storage space:** 20GB free
- **Memory:** 4GB RAM
- **Network:** Broadband Internet connection

Here are the best options to ensure your computer runs smoothly during the game and you get some great game graphics:

- **Direct X:** Version 9.0c
- **Graphics:** Nvidia GeForce GTX 650 Ti or ATI Radeon HD 7850 or better
- **Processor:** x86-compatible 2.6Ghz or better

Find out which graphics card you have in the Windows Display Settings through the Control Panel. You can also run Microsoft's DirectX diagnostic tool to get this info:

1. From the **Start** menu, open the **Run** dialog box.
2. Type **dxdiag**
3. Click on the **Display** tab of the dialog that opens to your find graphics card info.

DON'T HAVE THE HARDWARE?

If you don't have the hardware and happen to live in Brisbane or Melbourne, you can book a free computer at **QUT eSports Arena** or **Zen Gaming Lounge** that will be set up and ready to play on the day.

Go to the website's event page to book a computer.
